

axiom wave

axi-om (ak' se-em) wa-ve (wav):

Features a unique twist on our traditional offset curve roof design (518e) by featuring a positive / negative curve roof design with one or more tower elements. The Wave features raised sidewall elevations, choice of daylight or metal roof systems, distinctive axiom trim systems, decorative column covers and unique ACM cladding systems. The Wave is available with a single tunnel design or attached detail / polish areas as well.

The Axiom Wave is available in several configurations.
